MESSAGE OF XBER

Mission:

The mission of XBER is to create a new way to experience the world and interact with the people whereas the landscape is unique because it is the virtual replica of the reality. We aim to provide unique economic opportunities, entertainment and other positive aspects to our community by empowering creators, players and investors with the long-term partnership.

We are putting continuous effort for building a new universe where one can get equal opportunities, where everyone can travel without restrictions, do shopping, get education, earn money and have fun with friends and create meeting room. Moreover, users can customize their private room or make business meeting in the real life.

It will be like a usual world but innovative. In doing that, the Metaverse meticulously reproduces city by city, reconstructing their architecture, cultural features and other natural landscapes in the minutest detail with the benefit of digital innovation.

To achieve such mission, XBER does not make the replicas of the world's cities, but accentuates and brings into limelight unique tourist attractions and other live events, where people can join in the Metaverse what is happening in the real world.

We aim to preserve culture and other digital innovation. We are determined to elevate social culture, interactions and other environmental well-being in unique and enjoyable ways.

XBER is for better living.....

Vision:

We strongly believe in that future where what happens in reality is replicated in the Metaverse. Our vision is to become the world's leading Metaverse token through the extensive use of the game development experience, outstanding blockchain technology expertise and passion through our highly-driven talents and technology experts.

Main Goal:

We want to make virtual replica of the real world based on AR experience

- 📖 Our second goal is to develop crypto token using innovative technology required to build virtual reality of new generation.
- 📖 We are seeking to buildup a new society, a new model of payment and social relation.
- 📖 We want to build a new economic system based on the blockchain and decentralized finance.

Global Market and the Role of XBER:

The New Global Meta-Economy as a driver of Enormous Changes

The present year 2024 is a break year in the Metaverse Era. The global trend towards the third generation internet is the next evolutionary steps to the modern digital society.

As per the Gartner, Metaverse is one of the top five key technologies of 2024.

As per the Forbes estimation, global spending on the core Metaverse technology will increase to \$72.8 billion by 2024 which will turbocharge an explosive growth of the Metaverse market.

Global Metaverse Market:

XBER is the native center of the new economy

In present the universal merge the core technologies that have been booming over the past few years and the driving force behind such merge and synergy is METAVERSE.

XBER sees Metaverse as a new era that will make brands as well as user pioneer in the world. Vast range of opportunities are open up by the new phase of the development, web 3.0 will enable XBER to penetrate to various other extent into each and every sectors of the digital economy.

The stunning growth of the Metaverse economy looks all the better because no global leader has come onto scene yet.

XBER Metaverse Challenges:

Larger number of online services reduces the efficiency of interaction with the digital world and increase anxiety

All the important things have long been happening online but the life of the person fragmented across the number of different service and account. Private, Professional and financial aspects of the life bring about never-ending switching between account, changing interface and password to customize the user's need.

As a result, workload and other dissatisfaction are growing day by day and person has to spend more and more time on the maintenance of his digital world instead of communicating, working and making other life changing decision.

What will be happen if single environment is created and familiar for the person where person can solve absolutely any problem in the most enjoyable and effective way.

XBER comes up with the solution that brings a new universal world where everything one may need will be collected. Any new services, private room, store and other financial services will be instantly integrated into the environment and be perceived as something that has been always there.

Number of constraint and cost present in the real world

In real world, one can communication for the specific period while XBER brings a solution to operate non-stop where everything is always open and all the goods can viewed and tried right away.

In XBER, any financial problem is solved and business is done faster, efficiently, saving resource and time both which is used to waste in real-time.

Limitation of personal experience

In Metaverse, digital avatars enable users to acquire unique life experience in the virtual world as well as many other offline activities into the digital and virtual world with a new level of engagement and other communication opportunities.

Economic instability, decline in the income and business stagnation

Most of the people are losing their job in the real life due to economic crisis and other pandemic and the solution of these problems is creating a complete new economy, a new industry that will require new specialist and other professionals that does not exists in the present.

XBER brings a new economic system will grant its residents and partners as an option of building business, earning and monetizing their activity with the new world.

Loneliness and boredom, lack of fresh experience

Humanity is facing an epidemic of loneliness. The lack of human contact, a feeling of being unwanted, among other things, is product of the development of modern technologies.

It will bean elegant solution to make such technologies remedy the problem they created.

A focus on sociality, communication, interaction- this is exactly what the XBER is designed to achieve with the help of 3D and VR, a multiplayer game mode and well-developed UX.

Overview of XBER

Key concept of XBER:

XBER isa smart token powered by the people for the people. It is the premier source of everything cryptocurrency related. It is the most trusted and leading cryptocurrency platform based on the Binance Smart Chain (BEP-20).

XBER token community consist of millions of people and it is build primarily to make transactions inside the community but later it is available for everyone. People can start by participating in seed funding and gain amazing return later.

As XBER runs on the blockchain technology is considered more secured than other platform.

XBER holds a great back-end community of more than millions of people and our primary aim to support community financially.

Technology behind the XBER:

It is not possible to create XBER token without such important concepts such as virtual reality, extended reality, mix reality and augmented reality.

XBER token builds up a new virtual world and develop other communication technologies.

If we talk about interaction model, which is quite similar to the communication in the real world implemented in the new world.

Another important block which should not skip in the financial technologies is blockchain and cryptocurrencies. XBER token runs on the Binance Smart Chain (BEP-20). It is due to innovation in the area that is easy payments became possible between the companies and participants in the Metaverse and companies operating here.

Following listed technologies we have used to develop XBER token which are:

-  Artificial intelligence
-  Internet of things(IoT)
-  Extended reality
-  Brain-Computer Interface
-  3D Modeling and reconstructions
-  Spatial and Edge Computing
-  Blockchain

Virtual banking and finance:

XBER Token will meet the need offintech users. The virtual banking and finance will offers widestrangle of financial service to its clients based on the XBER Token.

XBER Token primarily built to support community financially but due to its popularity, it became available to rest of the world.

In each city, virtual digital neo banks will be opened and their clients will be able to visit virtual office. XBER token users will be able to use both traditional functionality and access the decentralized financial services.

To access the service and ensure the account safety, user will go through a verification procedure.

XBER Token will integrate:

-  Financial and payment services
-  Cryptocurrencies

-  Cryptocurrency exchanges
-  Insurance companies and broker
-  E-Commerce
-  Insurance
-  Broker Companies

XBER Token will be planning to cooperate with the other key financial institutions such as bank and other institutions. XBER enables them to operate their virtual offices in the ecosystem in the future.

XBER Market Place:

XBER Token will be the one of the largest NFT market place in the Metaverse Industry. It facilitates creation, storage, organization, purchase and sale of the non-fungible tokens.

XBER token market place allows every user to buy, hold and sell or gift their NFT.

Alongside with the virtual goods as the NFT, XBER Token will give access to the store and physical goods with the delivery in the physical reality. The largest brands will be able to simultaneously sell physical goods and issues their NFT along with the digital world.

XBER Token marketplace organizes the sales of the ticket of the events, concert and shows taking place in the XBER ecosystem. A combination of the real world events, real brands and performers will be created with their simultaneous representation in the virtual universe.

Futuristic use case of XBER:

XBER is one of the emerging Metaverse token. It is predicted to be used in the important domain in the future.

First of all, XBER token will be used in gaming, buying virtual land, cryptocurrencies transactions and other e-Commerce transactions.

Unique entertainment in the Metaverse:

XBER token creates and develops the concept of GameFi which will make any game a source of income as well as entertainment. Concept includes all-in-one infrastructure and platforms.

User can play and take part in the events within the Metaverse where they can mine collectively trade NFT assets and XBER Token.

At the same time, XBER offers immense opportunities for events and entertainment.

Artist, bloggers, performers, people of art, theatre and filmmakers get a unique platform and audiences.

XBER Token is a part of a sustainable and immersive 3D environment that makes extensive use of new and emerging technologies, making the experience of the virtual events especially rich and vivid. It takes people beyond the screen into virtual worlds of art, game and entertainment.

XBER Social:

XBER token builds up a social structure combining a function of messenger, forum and other virtual communities with all kinds of virtual communications.

The integration of users into communities and clubs will contribute to develop social activity along with the economic activity. In the same virtual space that makes the XBER Token a new generation communication hub and making sure an influx of new users.

Financial approach:

Economic model:

XBER is constantly shifting the economic activities of its users into the virtual world, creating a new virtual economic paradigm. XBER Metaverse relies entirely on blockchain and is intensively building new internal financial connections and an ecosystem.

XBER Tokenomics is developed on a transparent economic model based on equal access and fair distribution of Web 3.0-virtual universe income concept.

A distinctive feature of the project's economy is its dependence on the community, which is realized as the ability to receive a stable income by monetizing one's own skills and participating in the expansion of the project's infrastructure.

XBER is a circulation system that enables the community to exchange value within the Metaverse without the mediation of third-party payment systems.

The internal economy of XBER is based on regulation of the XBER token. They act as the universal in-platform currency and are accepted as a medium of exchange by all participants in the XBER universe and its partners.

The XBER Token is an efficient payment vehicle, a transaction mechanism and the key to instant trading within the wider ecosystem. XBER being a universal financial instrument, it is extended

Basic Tokenomics principles of the XBER financial space

XBER will evolve into the single world currency of the virtual space.

The tokenomics of the platform lays out the terms and conditions for XBER token distribution and circulation.

There are the Basic Tokenomics Principles of the XBER:

-  XBER will be distributed via Seed Funding which means “a form of securities offering in which an investor invests capital in a startup company in exchange for an equity stake or convertible notestake in the company”.
-  Token Farming can be started by using the farming value taken through XBER Token. Farming value of XBER Token can be considered as per the current BUSD Value.
-  Multi-chain: XBER is a utility token built on the ERC-20 standard and will be run on the BEP-20 smart Chain and other chains will follow closely.
-  XBER functions as a utility token and is the only access key to all services provided on the XBER platform.

Futuristic prospects and Milestone

Future Prospects:

XBER develops its ecosystem based on a disruptive vision of the future and the demands of a wide community.

The XBER team is focused on introducing virtual social mechanics, interactivity, building a new economic system and developing decentralized governance in the project.

The core aspect is to involve the community in managing XBER progress through the DAO. In cooperation with the community, the XBER team integrates the decentralized virtual world into everyday reality, making it brighter, more socialized, and full of new opportunities.

XBER has developed and is implementing a concept that will lay the groundwork for the technology of user interaction in the virtual space with their daily life activities integrated.

In the near future, it is intended to focus on three key areas

→Deployment of communication and recreation technologies, including virtual events, tourism, educational activities, and creation of digital avatars;

→Development of the economic and business environment of the XBER universe, opening up opportunities for partner companies to create virtual offices and stores and integrate with e-commerce;

→Building a decentralized community and ecosystem management structure through the DAO.

All goals and objectives are thoroughly estimated and worked out. They comprise a roadmap, which is consistently implemented by the project team.

Roadmap:

2024(Q1):

-  Idea initiation of XBER
-  Planning
-  Token generation and event planning
-  Market research
-  XBER tokenomics planning

2024(Q2)

-  Development team recruitment
-  Platform architecture
-  XBER modules development planning
-  XBER development and designing
-  Memes and Sticker Development

2025(Q2)

-  Build online community
-  Coin deployment
-  Website development
-  Community building
-  Seed funding

-  Social media promotion

2025(Q3)

-  UI/UX required upgrades
-  Cooperation with other partners
-  Listing on PancakeSwap
-  Promotion through bloggers
-  Back-end optimization

2025(Q4)

-  Listing on coin market cap
-  Listing on CoinGeko
-  Listing on Kucoin, Bitbns and Coinspot
-  Post-initiative to grow community
-  Doubled the support team

2026(Q1)

-  Listing on other multiple exchanges
-  Listing on price tracking website
-  Use case for other platform like gaming and e-Commerce
-  Advanced massive market push

2026(Q2)

-  Cross blockchain transactions
-  Mass adoption of XBER internationally
-  Global operation and advanced sales strategies
